ABOUT THE WINERY

Cidre Intrus make macerated ciders with foraged fruits and botanicals, including some inspired combinations like wild roses and rhubarb. All their ingredients come from Île d'Orléans, an island in the St Lawrence river known as the 'Garden of Quebec' and the birthplace of Francophones in North America. The island is famed for its agriculture, with a distinct microclimate supporting viticulture in frigid northern latitudes.

These ciders are bursting with energy and the punk rock spirit we love-- these are 'explosive' beverages so please open with care! Pr
