ABOUT THE WINERY

Founded by Hiroataka and Reina Meguro, Fattoria AL FIORE is a natural winery at the foot of the Zao Mountains in Kawasaki Town, Miyagi Prefecture. The name combines "Fattoria" (Italian for farm) with "AL FIORE" (meaning "a flower"), inherited from the Italian restaurant Meguro opened in Sendai in 2005.

In 2014, the couple began planting grapevines on abandoned farmland in the Hasekura district, housed in the converted gymnasium of the former Hasekura Elementary School since 2018. They operate two wine lines: the flagship Fattoria AL FIORE series from estate-grown grapes, and the NECO series (named after their resident cats) made from purchased grapes sourced across Tohoku.

WINEMAKING PHILOSOPHY

Fattoria AL FIORE treats grapes and wine "gently, the same way we treat our friends," guided by the principle "all things are gifts." Rather than pursuing a predetermined ideal, they taste each harvest before deciding how to vinify it, accepting the individuality of the grapes.

All wines are fermented with wild yeast only, with no additives, sulfites, fining, or filtration.

ABOUT MIYAGI

Miyagi Prefecture, the cultural and economic anchor of southern Tohoku, has a small but distinctive wine identity centered on the Akiu hills west of Sendai. Fattoria al Fiore, our portfolio producer, is the area's most internationally visible operation.
